ABSTRACT

The conference proceedings will be published on CD-ROM (see Instructions for Electronic Paper Submission) and printed in paper form from the camera-ready hard copy you provide. Be sure to follow formatting and submission instructions carefully. Your failure to do so may jeopardize the inclusion of your paper in the conference proceedings.

I. INTRODUCTION

Your paper must be submitted in an 8 1/2 in. × 11 in. (216 mm × 279 mm) format. Use a laser printer to produce clear, sharp type and figures. The top, left, and right margins must be 1/2 in. (13 mm), and the bottom margin must be 1 in. (25 mm). Nothing should appear on your page outside these margins. Type two columns per page [with 1/4 in. (8 mm) gutter between columns].

Begin your paper with an abstract. Use 10 point Times Bold, all caps, for major headings. Center major headings within the column. Use Roman numerals to number major sections. Do not number the abstract or the references section.

A. Subheadings

Use 10 point Times Italic, initial caps, for subheadings. Align subheading to the left-hand margin of the column.

B. Equations

Center equations in the column, with the equation number enclosed in parentheses and aligned with the right-hand margin of the column.

$$h(t) = \sum_{k=1}^K a_k e^{j\omega_k t} d(t - t_k) \quad (1)$$

II. ILLUSTRATIONS

Place figures and tables in position (within a single column, if possible). Text in figures should be black. Use a sans serif font (Helvetica, Arial). Keep lines simple and keep shading to a minimum. Do not submit hand-drawn art or text. Place table title above the table; place figure caption below the figure.

Place black and white photographs in position (within a single column if possible).

III. SUBMISSION DEADLINE

Three hard copies and the electronic version of your paper must be received by June 15, 1998. Be sure to send the signed IEEE Copyright Form with your paper. This form authorizes publication of your paper. If we don't receive the form, your paper will not be included in the conference record. Do not fold the final camera-ready paper.
